

Irancell

ایرانسل

Iran's second largest mobile network operator (2G-5G) by subscribers and a fixed-wireless internet provider; a joint venture between MTN Group (49%) and Kowsar Sign Paniz (51%). About 56 million subscribers and about 43 percent market share (2025).

Record	IR-CO-2158 · sector telecom · founded 2005 · Tehran
Entity verification	Corroborated: the legal identity is confirmed by an official source. The tier describes the entity, not every field; each fact below carries its own evidence state.
This document	Version 2026-10-07.24224d75. Generated 2026-10-07 from a snapshot of the record taken 2026-10-07 (57 public facts; facts checksum b6b09df3bf38db958d1c90dea2134f68; snapshot sha256 24224d756fd27de1...). Nothing in it was typed by hand: every figure, period, source and note is the record field.
Dates	Latest fact update on the record 2026-10-07 · last full desk review n/a · a full review re-reads every source; a fact update touches one field.
Currency of this file	The live record at tehranindex.com/companies/irancell is corrected continuously and supersedes this file for anything dated after 2026-10-07. Corrections are logged with dates at tehranindex.com/corrections .

Evidence states used below: **Official record** · **Company disclosed** · **Founder disclosed** · **Third-party reported** · **Tehran Index derived** · Not disclosed. Official record means a registry, exchange or regulator document; company and founder disclosed means the company or its executives on the record; third-party reported means press or a shareholder report we hold but not the underlying filing; derived means a Tehran Index mapping, never a market study.

Decision snapshot

Headline figures a reader asks for first. Founder and CEO statements are labelled as such and are not audited.

Founded 1384 (2005) Third-party reported	1384 (2005), license granted 27 November 2005 Source: Persian Wikipedia · https://fa.wikipedia.org/wiki/%D8%A7%DB%8C%D8%B1%D8%A7%D9%86%D8%B3%D9%84 · retrieved 2026-09-29 Note: The date is the grant of the second mobile operator licence as the encyclopedia article states it, not the licence document itself. The article dates the start of SIM card distribution in Tehran, Tabriz, Mashhad and Sari to 21 October 2006.
Legal form Current Third-party reported	Private joint stock company (صا خ یم اه س) Source: Persian Wikipedia · https://fa.wikipedia.org/wiki/%D8%A7%DB%8C%D8%B1%D8%A7%D9%86%D8%B3%D9%84 · retrieved 2026-09-29 Note: Read from the article's infobox, which cites no registry notice for the legal form. Corrected 29 September 2026: the entry previously added that the company is not publicly listed, which the article does not state.
Registered capital (registry record) Registry record as read on 2 October 2026; latest Official Gazette notice printed 9 July 2026 Official record	44,578,000,000,000 rial (4,457.8 billion toman), the registered capital of Irancell Telecommunication Services, a private joint-stock company. Registered capital is a nominal legal figure and is not a valuation. Source: National Company Registry via Rasmio · https://rasmio.com/company/10102933851/ · retrieved 2026-10-02

Operating and financial metrics, period-stamped

Series are as disclosed; where a definition changed between years the note says so and the series is not continuous.

Active subscribers Year to 19 March 2024 Company disclosed	66,685,808, up 3 per cent on the previous year Source: Irancell sustainability report 1402, year to 19 March 2024 · retrieved 2026-10-06 Note: Irancell's own count of active lines. MTN Group's published Iran subscriber series uses MTN's own definition and is lower; the two are not the same measure.

Revenue

Years ended 31 December 2025, 2024 and 2023

Official record

R16,310 million (2025), after R19,310 million (2024) and R21,406 million (2023), at 100 percent of Irancell

Source: MTN Group FY2025 annual financial statements, note 9.2, summarised financial information of joint ventures, page 113 of the printed statements (PDF page 115); 2023 comparative from the FY2024 statements, note 9.2 ·

<https://mtn-investor.com/fy-2025-reporting-suite/pdf/mtn-fy25-annual-financial-statements-2025.pdf> · retrieved 2026-09-03

Note: IFRS 12 disclosure of the joint venture at 100 percent, in rand, after IAS 29 hyperinflation restatement of the rial accounts, translated at closing rates. MTN holds 49 percent and equity-accounts the company; its share of revenue is not a line MTN reports. Irancell's year end for group reporting is 21 December. The rand series falls 15.5 percent in 2025 and 9.8 percent in 2024; both are translation effects of a depreciating rial, and MTN's constant-currency commentary reports growth in both years. About US\$1.05 billion for 2024 at MTN's stated 2024 average rate of R18.32 to the dollar, for scale only. Disclosed by a shareholder; Irancell publishes no accounts. 2023 figure read from the FY2024 statements (not linked).

Profit after tax

Years ended 31 December 2025, 2024 and 2023

Official record

R5,346 million (2025), after R9,558 million (2024) and R6,376 million (2023), at 100 percent; MTN's 49 percent share R2,620 million, R4,683 million and R3,124 million

Source: MTN Group FY2025 annual financial statements, note 9.2, summarised income statement of joint ventures, page 113 of the printed statements (PDF page 115); 2023 comparative from the FY2024 statements, note 9.2 ·

<https://mtn-investor.com/fy-2025-reporting-suite/pdf/mtn-fy25-annual-financial-statements-2025.pdf> · retrieved 2026-09-03

Note: Reconciles: $5,346 \times 0.49 = 2,620$, the share of results MTN books for 2025 (2024: $9,558 \times 0.49 = 4,683$). The 2025 income statement at 100 percent: revenue 16,310, other income 21, operating expenses (10,362), depreciation (4,596), amortisation (938), finance income 213, finance costs (380), net monetary gain from hyperinflation accounting 4,972 (2024: 3,484), share of an associate 16, profit before tax 5,256, an income tax credit of 90. The monetary gain is most of the profit in 2025, so the figure is not comparable with a rial income statement. Fools to the rand. 2023 figures read from the FY2024 statements (not linked).

Balance sheet

31 December 2025

Official record

Total assets R66,701 million, total liabilities R27,305 million, net assets R39,396 million at 100 percent (31 December 2024: R62,644 million, R26,099 million, R36,545 million)

Source: MTN Group FY2025 annual financial statements, note 9.2, summarised statement of financial position of joint ventures, page 112 of the printed statements (PDF page 114) ·

<https://mtn-investor.com/fy-2025-reporting-suite/pdf/mtn-fy25-annual-financial-statements-2025.pdf> · retrieved 2026-09-03

Note: Fools: non-current assets 59,485 plus current assets 7,216 equals 66,701; non-current liabilities 9,004 plus current liabilities 18,301 equals 27,305; net assets 39,396, of which 49 percent is the R19,304 million MTN carries as its interest before goodwill of R4 million. At 100 percent: property, plant and equipment R51,218 million after hyperinflation restatement, cash R1,265 million plus restricted cash R870 million, trade receivables R4,842 million, current borrowings R5,996 million, dividends payable R1,437 million, deferred tax liabilities R8,506 million. Disclosed by a shareholder; Irancell publishes no balance sheet.

Revenue and EBITDA, MTN's 49 percent share, excluding hyperinflation

Years ended 31 December 2024 and 2023

Official record

Revenue R11,149 million after R9,365 million, up 19.0 percent reported and 47.7 percent in constant currency; EBITDA excluding once-off items R6,207 million after R3,850 million, a margin of 55.7 percent after 41.1 percent

Source: MTN Group FY2024 annual financial results booklet, data sheets, revenue breakdown and EBITDA excluding once-off items, pages 158 to 160 of the printed booklet ·

<https://www.mtn.com/wp-content/uploads/2025/03/MTN-Group-FY-24-results-complete-booklet-HR.pdf> · retrieved 2026-09-03

Note: Basis: the booklet presents Iran at MTN's 49 percent proportionate share, not at 100 percent. The proof is arithmetic: the booklet's revenue including hyperinflation, R9,462 million, is exactly 49 percent of the R19,310 million the audited statements disclose at 100 percent, and R10,489 million is exactly 49 percent of R21,406 million for 2023. The equity-accounting exclusion line then removes the joint-venture rows from the group total. Multiply by 100/49 for whole-company equivalents (revenue about R22,753 million, EBITDA about R12,667 million, derived, not published by MTN). Revenue mix 2024 at this basis: data R6,982 million, outgoing voice R1,669 million, digital R1,301 million. Hyperinflation adjustment on revenue (R1,687 million) in 2024.

Subscribers

31 December 2025 (MTN 4Q 2025); quarterly series from 1Q 2024

Official record

57.6 million at 31 December 2025, on the count published by MTN Group, which holds 49 percent of Irancell and reports it as an equity-accounted joint venture. MTN's quarterly series for the Iran row runs 55.6 million at 31 December 2024, 56.2 million at 31 March 2025, 56.7 million at 30 June 2025, 57.1 million at 30 September 2025 and 57.6 million at 31 December 2025. The reading closest to the Iranian year end of 20 March 2025 is 56.2 million. MTN separately reports 33.5 million active data subscribers for Irancell at 31 December 2025.

Source: MTN Group Limited, results data sheets for the year ended 31 December 2025, SUBSCRIBERS table, Iran (joint venture) row ·

<https://mtn-investor.com/reporting/annuals-2025/pdf/data-sheets-spreads.pdf> · retrieved 2026-09-07

Note: Read from the MTN FY2025 results data sheets, an audited results pack from the 49 percent shareholder, where the subscribers (000) table carries its column headers 1Q 24 to 4Q 25 in the same view as the Iran (joint venture) row; the Iran row carries an unexplained caret marker with no matching footnote on that page. Persian Wikipedia, citing the Communications Regulatory Authority, gives 69M+ at the end of FY2024-25, 12.8 million above the MTN figure for the same period. The regulator's count is expected to be higher than the operator's because the Communications Regulatory Authority reports registered mobile subscriptions, a total that stood above 162 million across all three Iranian operators in the quarter to March 2025, well above the population. The CRA statistics page itself could not be reached on 7 September 2026, so the two definitions have not been set side by side.

4G network coverage

Current

Third-party reported

85% of the population covered by 4G and 4.5G

Source: Persian Wikipedia ·

<https://fa.wikipedia.org/wiki/%D8%A7%DB%8C%D8%B1%D8%A7%D9%86%D8%B3%D9%84> · retrieved 2026-09-29

Note: The article says all cities are covered by 3G, 4G or 4.5G. It presents the figure as current without dating it or naming its source.

5G network coverage

FY2023-24

Third-party reported

At most 50% of cities covered by 5G

Source: Persian Wikipedia ·

<https://fa.wikipedia.org/wiki/%D8%A7%DB%8C%D8%B1%D8%A7%D9%86%D8%B3%D9%84> · retrieved 2026-09-29

Note: The article gives this as an upper bound (رث‌ک‌داج, at most), not a measured share. Corrected 29 September 2026 from a flat 50%.

Growth in job positions

Year to 20 March 2021

Third-party reported

+11% total job positions, on new job titles · more than 2,300 staff

Source: Digiato (Irancell 1399 report) · <https://digiato.com/article/2022/03/16/report-irancell-1399> · retrieved 2026-09-26

Note: Digiato's reading of Irancell's first business sustainability report, published 16 March 2022. 84 per cent of staff hold a bachelor's degree or higher. The 11 per cent is growth in the number of job positions, not in employees.

Business and group structure

Core products

Current

Third-party reported

Mobile internet (5G, 4G, 3G), fixed internet over TD-LTE and fibre, voice and video calling over VoLTE, international roaming, internet of things services and the Irancell Man super-app; products listed as SIM cards, modems and network equipment.

Source: Persian Wikipedia ·

<https://fa.wikipedia.org/wiki/%D8%A7%DB%8C%D8%B1%D8%A7%D9%86%D8%B3%D9%84> · retrieved 2026-09-29

Note: Read from the article's infobox. Corrected 29 September 2026: the entry previously also listed 2G and a fibre brand name, neither of which the linked article states.

Named in foreign issuers' Iran disclosures

Financial years 2024, 2025 and, for Arm, the year ended 31 March 2026

Official record

Irancell is named as a roaming counterparty in the Section 13(r) Iran disclosures of at least five foreign issuers filing with the US Securities and Exchange Commission. Turkcell, for 2025, lists international roaming relationships with the Telecommunication Company of Iran, "Irancell Telecommunications Services Company (MTN Irancell)" and RighTel, and reports gross revenues of about 43.6 million Turkish lira and gross margin of about 35.5 million lira across those agreements. VEON, for 2025, reports gross revenue from its Irancell roaming arrangements of about 196 US dollars. Telefonica S.A., for 2024, reports that its German subsidiary recorded 7,467 euros from Irancell. Arm Holdings, for the year ended 31 March 2026, discloses that its parent SoftBank Group provides roaming services in Iran through Irancell with no gross revenue. Telefonica Brasil and TIM S.A. name Irancell in the same way.

Source: Turkcell Iletisim Hizmetleri A.S. Form 20-F for 2025 (filed 17 April 2026); VEON Ltd. Form 20-F for 2025 (filed 16 March 2026); Telefonica S.A. Form 20-F for 2024 (filed 27 February 2025); Arm Holdings plc Form 20-F for the year ended 31 March 2026 (filed 26 May 2026) ·

<https://www.sec.gov/Archives/edgar/data/1071321/000110465926044740/tkc-20251231x20f.htm> · retrieved 2026-09-12

Note: Each filing was opened and the passage read; the set was found by SEC full-text search. Amounts are roaming settlements between operators and say nothing about Irancell's own revenue.

Leadership and boards

CEO

Board meeting of 26 May 2026, gazette printed 9 July 2026; term to 21 July 2027

Third-party reported

Mohammad Hossein Soleimanian (نایب‌الرئیس محمدحسین سولیمانیان)

Note: Read from the article's infobox, which lists both under subsidiaries (ع‌ب‌ات‌ای‌ه‌ت‌ک‌ر‌ش) with Irancell's role in brackets. It gives no stake size and no holding route.

Competitive set

Direct

Current

Third-party reported

MCI / Hamrah-e Aval, RighTel

Source: Market observation · retrieved 2026-07-27

Note: TCI (via subsidiary MCI) is the dominant fixed-line + mobile rival

What is not known

Stated gaps are part of the record. A blank is a finding, not an omission.

Not disclosed

Not disclosed

Irancell-published accounts after 1399, exact current employee count, MTN exit status and timeline, Iran EDC ultimate ownership details

Source: retrieved 2026-07-27

Note: Irancell itself publishes no revenue or profit. Both are disclosed by its 49 percent shareholder MTN Group in audited statements filed in Johannesburg.

Corrections recorded on this record

Facts whose note records a dated correction, replacement or update. Reproduced from the record, not summarised.

Legal form

Current

Third-party reported

Private joint stock company (صاخ یماهس)

Source: Persian Wikipedia ·

<https://fa.wikipedia.org/wiki/%D8%A7%DB%8C%D8%B1%D8%A7%D9%86%D8%B3%D9%84> · retrieved 2026-09-29

Note: Read from the article's infobox, which cites no registry notice for the legal form. Corrected 29 September 2026: the entry previously added that the company is not publicly listed, which the article does not state.

Core products

Current

Third-party reported

Mobile internet (5G, 4G, 3G), fixed internet over TD-LTE and fibre, voice and video calling over VoLTE, international roaming, internet of things services and the Irancell Man super-app; products listed as SIM cards, modems and network equipment.

Source: Persian Wikipedia ·

<https://fa.wikipedia.org/wiki/%D8%A7%DB%8C%D8%B1%D8%A7%D9%86%D8%B3%D9%84> · retrieved 2026-09-29

Note: Read from the article's infobox. Corrected 29 September 2026: the entry previously also listed 2G and a fibre brand name, neither of which the linked article states.

5G network coverage

FY2023-24

Third-party reported

At most 50% of cities covered by 5G

Source: Persian Wikipedia ·

<https://fa.wikipedia.org/wiki/%D8%A7%DB%8C%D8%B1%D8%A7%D9%86%D8%B3%D9%84> · retrieved 2026-09-29

Note: The article gives this as an upper bound (رثکادح, at most), not a measured share. Corrected 29 September 2026 from a flat 50%.

Registered entity

How this document was produced

Tehran Index holds one record per company in a structured database. Each fact carries a label, a value, the period it describes, an evidence state, the source it was read from, the date it was retrieved and a note that records caveats and every later correction. This file is a rendering of that record as it stood on 2026-10-07: scripts/export-company-record.mjs against the live database; facts checksum computed locally and by the database function company_facts_md5, both b6b09df3bf38db958d1c90dea2134f68. Because the record moves and this file does not, the file is superseded by the live record for anything dated after the snapshot; a regenerated version carries a new version string on every page. Methodology: tehranindex.com/methodology. Scope and standards: tehranindex.com/standards.
