THE ANSWER

Summary

A real, long-running operator whose owner paid 12.1 trillion rial in between 2021 and 2025 and took 12,097 billion rial of it back out on 17 June 2026. The same owner moves capital in and out of the whole Snapp group on the same days.

- 1 Snapp's operating company is Ideh Gozin Ertebatat Romak, national ID 14004334449, a limited liability company registered in August 2014, with ride-hailing in its objects since September 2016. All 45 of its Gazette notices were read; the latest was published on 6 August 2026.
- 2 It is owned by Ideh Negaran Atlas Romak, with 10,000 rial held by Almas Ideh Gostaran Pars, which the holding itself owns 99.5 per cent of. The holding was founded by two foreign companies named as FZEs, and its owners are no longer published since it became a joint stock company in 2023.
- 3 Capital went in and came back out twice: 292.6 billion rial from the foreign partners (2018 to 2020), paid back in 2021; 12.1 trillion rial from the holding (2021 and 2025), paid back in June 2026. Registered capital is now 381,999,290 rial.
- 4 The same decisions were taken on the same days across up to six operating companies of the group, and Snapp Market wrote its capital down twice for losses.
- 5 The chair is Mahmoud Fowz, a foreign national; a person of that name has chaired every board since 2016, under identifiers the notices do not join. The 2025 board notice rests on a foreign-employment permit.

Findings

Rated for a counterparty: **MATERIAL** changes how you should deal; **ASK** is a question to put to the company before you rely on it; **NOTE** is context. Numbers in brackets are references to the evidence annex.

MATERIAL	The owner took 12.1 trillion rial back out in June 2026. An extraordinary meeting of 17 June 2026 paid 12,097 billion rial back to Ideh Negaran Atlas Romak and cut registered capital to 381,999,290 rial. [15, 18, 19, 34]
MATERIAL	Registered capital is now 382 million rial. After June 2026 the registered capital of Snapp's operating company is 381,999,290 rial; equity on the register says nothing about the business's size. [19]
ASK	Who owns the holding is no longer published. Atlas Romak became a joint stock company in February 2023; its last partner list named two foreign companies (FZEs) and Almas. [20, 22, 23, 24, 26]
NOTE	The second partner is owned by the first. Almas, which holds 10,000 rial in five group companies and 149,984,069 rial in Avaye Eshan, is 99.5 per cent owned by the holding, and sits on the holding's board. [28, 13, 27]
MATERIAL	Snapp Market's capital was written down twice for losses. Capital cut from 4,469 billion to 762 billion rial in July 2024 and to 1,000,000 rial in July 2025 "because of losses incurred", then rebuilt from receivables. [50, 51, 52, 53]
NOTE	Group decisions are taken centrally, on the same days. The same partner swap at six companies on 16 October 2021, and capital moves decided on 29 December 2021, 27 July 2025 and 17 June 2026, across the group. [13, 31, 37, 43, 48, 56, 15, 40]
ASK	A foreign national chairs, under permit. The chair, Mahmoud Fowz, is a foreign national; the board notice of 2025 rests on a foreign-employment permit. [4, 6, 17]
NOTE	Ride-hailing came two years after the company. Formed in August 2014 with ICT objects naming transport centres; ride-hailing objects added in September 2016. [1, 2, 7]
NOTE	The registry's own board table is unreliable. The table lists 20 rows, 14 without an end date, including three managing directors at once. [61, 17]

What only this report holds

Every fact below can be checked against a public page. What a single reading of public pages does not give is history and breadth: the app stores and the registry show only today, and a group's pattern shows only when every company in it is read.

CROSS-COMPANY

One controller, six operating companies, the same days

On 16 October 2021 the same two foreign partners, named as FZEs, left six Snapp companies at once and the same two Iranian companies took their place. On 29 December 2021 the new holding paid about 12.4 trillion rial into all six. Meetings of 27 July 2025 approved 15 trillion rial of cash increases at Snapp, SnappFood and SnappPay, paid in under bank certificates of September and October 2025. On 17 June 2026 it took 18 trillion rial back out of Snapp and SnappFood. No single notice shows this: it appears only when every company in the group is read. [\[13, 31, 37, 43, 48, 56, 18, 33, 40, 19, 34\]](#)

PANEL

Fifteen weeks of the Snapp apps, captured by the desk

Since 29 June 2026 the desk has captured the Snapp and Tapsi listings on Cafe Bazaar every week, and on Myket since 20 August. Over fifteen weeks the Snapp passenger app added about four new ratings for every one Tapsi added. The rating shown for the Snapp driver app moved from 2.9 to 3.5 in late July. The stores show only today's figure; the history is the desk's own capture.

REGISTRY HISTORY

The registry's board table, dated and kept

The registry publishes its own board table for each company. Read on 13 October 2026, Snapp's has 20 rows, 14 of them with no end date, including three different managing directors at once, one appointed in 2014 and replaced in 2015. A service that resells that table repeats its errors. This report rests on the notices themselves. The desk read the table on 13 October 2026 and reads it again every Saturday, keeping each read, so a change is dated to the week it appeared. [\[61\]](#)

COMPILED

Ownership traced through every layer, by national ID

Snapp is owned by Ideh Negaran Atlas Romak, with a 10,000 rial interest held by Almas Ideh Gostaran Pars, which the holding itself owns 99.5 per cent of. The holding was founded by the same two foreign companies, named as FZEs, and was owned by them and Almas when it last published partners in February 2023. Each step is a public notice; the chain appears only when the eight companies are read together. [\[19, 28, 20, 23\]](#)

What to ask before you sign

- 1 The minutes of the extraordinary meeting of 17 June 2026, and where the 12.1 trillion rial went.**
Whether it was paid out as cash, set off against a debt to the holding, or lent back decides what is left in the company you deal with.
- 2 Audited financial statements for 2025 and the first half of 2026.**
No auditor is named in the notices, and the registered capital of 382 million rial says nothing about the company's strength.
- 3 The share register of Ideh Negaran Atlas Romak and its foreign investment licence.**
The holding stopped publishing its owners when it became a joint stock company in February 2023.
- 4 Balances between Snapp and the other group companies, including Snapp Market.**
Snapp Market wrote its capital down twice for losses and was rebuilt from receivables; group balances move risk between companies.
- 5 The current employment permits of the foreign chair and signatory, and the signing rules in force.**
Two of the five who can bind the company are foreign nationals, and the 2025 board notice rests on a foreign-employment permit.

03

Findings in full

MATERIAL

The owner took 12.1 trillion rial back out in June 2026

Ideh Negaran Atlas Romak paid 6,097 billion rial into Snapp's operating company in December 2021 and a further 6,000 billion approved in July 2025 and paid under bank certificates of October 2025. On 17 June 2026 an extraordinary meeting paid 12,097,000,000,000 rial back to it and cut registered capital from 12,097,381,999,290 rial to 381,999,290 rial. The same day SnappFood paid 5,945 billion rial back to the same holding. The notices do not say why, or whether the money left as cash, was set off against a debt, or was lent back. [15, 18, 19, 34]

MATERIAL

Registered capital is now 382 million rial

An LLC's registered capital is the partners' contributions. At 381,999,290 rial it is a small fraction of what was paid in and taken out, so a counterparty cannot read the company's financial strength from the register. Audited accounts and any shareholder loans are the question. [19]

ASK

Who owns the holding is no longer published

Ideh Negaran Atlas Romak was founded in September 2015 by two foreign companies named in the notices as Internet Roz One FZE and Internet Roz Two FZE. Its last partner list, in February 2023, named those two and Almas Ideh Gostaran Pars. Days later it became a private joint stock company, whose shareholders the Gazette does not publish. Its increase to 1 trillion rial, registered in 2024, cites a permit of the Economic and Technical Investment Organization of Iran (the notice's name for OIETAI), the body that licenses foreign investment. Ask for the share register and that licence. [20, 22, 23, 24, 26]

NOTE

The second partner is owned by the first

Almas Ideh Gostaran Pars was formed in July 2021 with 1,000,000 rial: 995,000 from Ideh Negaran Atlas Romak and 5,000 from Internet Roz Two FZE. Three months later it became the second partner of Snapp and five other group companies (it now holds 10,000 rial in five of them and 149,984,069 rial in Avaye Eskan; in Snapptrip it held 262,819,539 rial until February 2023), and it now holds the vice chair of the holding's board. In substance, the holding owns the group's operating companies alone. [28, 13, 27]

MATERIAL

Snapp Market's capital was written down twice for losses

Ideh Gozin Kalaye Atlas Tejarat, the Snapp Market company, reduced its capital from 4,469,057,112,004 rial to 762,329,842,914 rial in July 2024 and to 1,000,000 rial in July 2025, each time "because of losses incurred". The next day its capital was raised to 2,460 billion rial from receivables, not cash. A counterparty dealing with the group should know which company it contracts with. [50, 51, 52, 53]

NOTE

Group decisions are taken centrally, on the same days

Six group companies held extraordinary meetings on 16 October 2021 with the same outcome: the two foreign partners left and Atlas Romak and Almas came in. Cash followed on 29 December 2021 into all six. Meetings of 27 July 2025 approved cash increases at Snapp, SnappFood and SnappPay, paid in under bank certificates of September and October 2025, and recapitalised Snapp Market from receivables. On 17 June 2026 Snapp and SnappFood paid capital back to the holding. [13, 31, 37, 43, 48, 56, 15, 40]

ASK

A foreign national chairs, under permit

The 2025 board notice names Mahmoud Fowz, a foreign national, as chair, and cites permit 19140 of the General Directorate for the Employment of Foreign Nationals. A person of the same name was managing director from 2015 and chair from 2016 to 2021, but under a different identifier, and the desk never joins identifiers by name. Martin Rohland, also a foreign national, is one of the five who can sign; a person of that name has signed since 2020, under identifiers the notices do not join. Ask whether the chairs of 2016 and 2025 are one person, and for the current permits of every foreign signatory. [4, 6, 17]

NOTE

Ride-hailing came two years after the company

The company was registered on 23 August 2014 by two individuals with ICT and computer services objects that already named passenger transport centres. Within a month two foreign companies replaced them. App-based passenger and freight transport was added to the objects in September 2016. [1, 2, 7]

NOTE

The registry's own board table is unreliable

Read on 13 October 2026, the registry's board table for the company still shows Houman Damarchiloo (appointed 2014) and Zhoobin Alaghband (2017 to 2020) as managing director with no end date, beside the current managing director. The notices show who holds each post; the table alone does not. [61, 17]

04

Identity

The company is identified by its 11-digit national ID, the registry's key. Every other identifier below hangs from it.

Legal name	Ideh Gozin Ertebatat Romak (in Persian: see reference 1)
Company national ID	14004334449
Registration	No. 459117, Tehran registry of companies
Incorporated	23 August 2014
Legal form	Limited liability company
Registered office	Zafaraniyeh, Shemiranat county, Tehran province (Fallahi Street, No. 2, 12th floor), since April 2023
Registered capital	381,999,290 rial (partners' interests, not shares: Ideh Negaran Atlas Romak 381,989,290 rial, Almas Ideh Gostaran Pars 10,000 rial)
Auditor or inspector	None named in any notice
Financial year	Calendar year, since October 2015

Gazette notices	45 since incorporation, all read; listed in full below

05

Board and control

Four individuals sit on the board, elected for an unlimited term. Two of the five people who can bind the company are foreign nationals, and the board notice rests on a foreign-employment permit.

The board elected on 1 March 2025, for an unlimited term

SEAT	TYPE	REPRESENTED BY	ROLE	REF
Mahmoud Fowz	Individual		Chair (foreign national; not a partner)	[17]
Mohammad Khalaj Ghasemabadi	Individual		Managing director and vice chair (not a partner)	[17]
Kasra Sadeghizadeh	Individual		Member (not a partner)	[17]
Jalal Gharaei	Individual		Member (not a partner)	[17]

How the company signs

Who signs. Banking and binding documents need two signatures out of five: the four board members and Martin Rohland, a foreign national who is neither a member nor a partner, with the seal. Ordinary letters: the managing director or Jalal Gharaei. [17]

Foreign directors need a permit. The 2025 board notice is published on the strength of a permit from the General Directorate for the Employment of Foreign Nationals (permit 19140 of 28 April 2025). The holding's 2025 board notice cites a letter from the same directorate. A lapsed permit is a practical risk to signing authority. [17, 27]

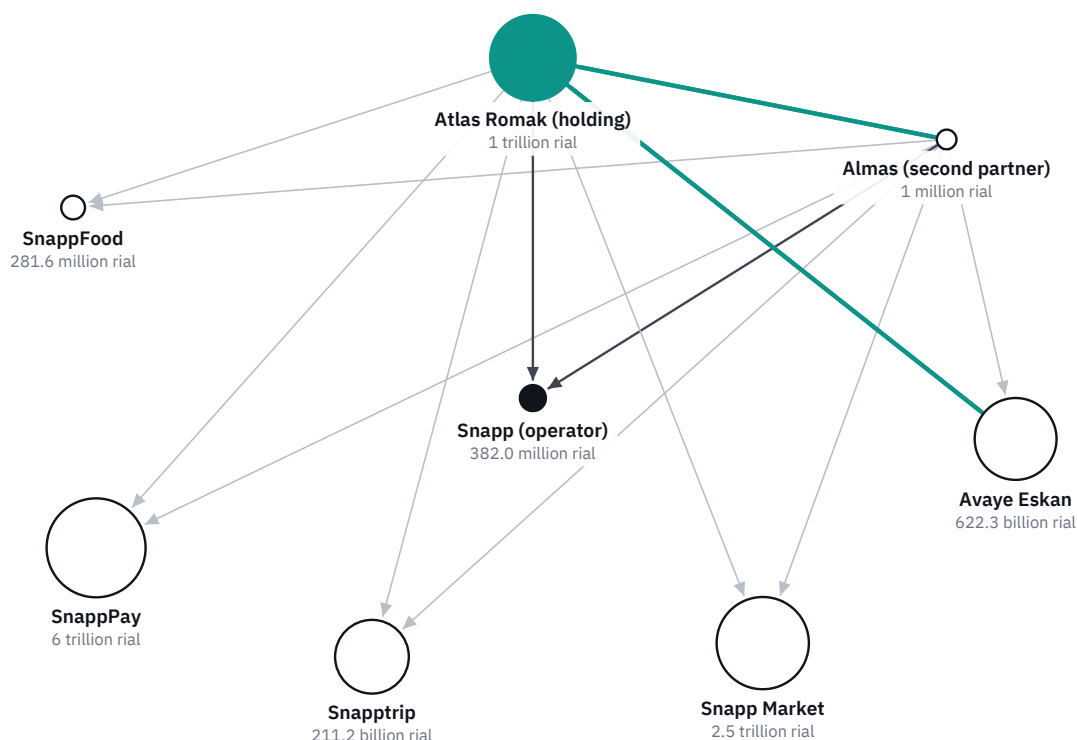

Term. The board was elected for an unlimited term, which a limited liability company may do. Nothing in the Gazette forces a re-election date. [17]

Financial year. The calendar year, from 1 January, since October 2015. No auditor or inspector is named in any notice of the operating company, which as a limited liability company is not required to publish one. [5]

06

The Snapp group, traced by national ID

Eight companies, each read in full. The holding and its second partner hold every operating company; the same people sign across them. Only a partner's interest, a board seat or a director matched by national ID links a company here.

Arrows run from the company that holds a partner's interest or a board seat to the company it holds it in. **Teal lines** join pairs that hold each other. The operating company is filled black; the holding, teal. Circle size follows registered capital (log scale). Two foreign companies named as FZEs, the holding's founders, have no Iranian national ID and are not drawn.

Who holds whom

Read across: the company in the row holds an interest (P), a board seat (B) or both (PB) in the company in the column. Teal cells are reciprocal. Almas was last listed as a partner of the holding in February 2023, days before the holding became a joint stock company, which does not publish its owners.

The same people, across the group

Matched by the national ID printed in each notice, hashed in the browser and never recorded. Iranian nationals carry one ID across every notice, so a match is the same person. Foreign nationals' identifiers changed over time; each is matched only to itself, never joined by name, so their counts are a floor. A shared surname links no one.

Who has owned Snapp's operating company

A limited liability company publishes its partners, so the Gazette holds every owner the company has had. There have been three sets: two individuals for a month, two foreign companies named as FZEs for seven years, and since October 2021 the holding and its second partner.

Every partner list, 2014 to 2026

How the capital was built

Cash went in and came back out twice. The foreign partners paid in 292.6 billion rial between 2018 and 2020 and took it back in August 2021. The holding paid in 12.1 trillion rial in December 2021 and 2025 and took it back on 17 June 2026.

Each step is the notice's own amount. A reduction that pays a partner back is drawn in amber. Two moves that ended where they began are in the notice list and not drawn: a 980,000 rial swap between the two foreign partners in January 2015, and the partner change of 16 October 2021 (1,000,000 to 2,000,000 and back to 1,000,000 rial).

Registered capital across the group

Black: the operating company. Red: built at least in part by converting matured receivables. Slate: cash only. Log scale.

From the Tehran Index panel: the Snapp apps, week by week

The desk captures the public listing of every tracked app on Cafe Bazaar every week since 29 June 2026, and on Myket since 20 August 2026, and keeps every capture. The stores show only today's figures; these series are the desk's own captures. A rating is a user action: the number added each week measures engagement, not users, and a store can change how it counts.

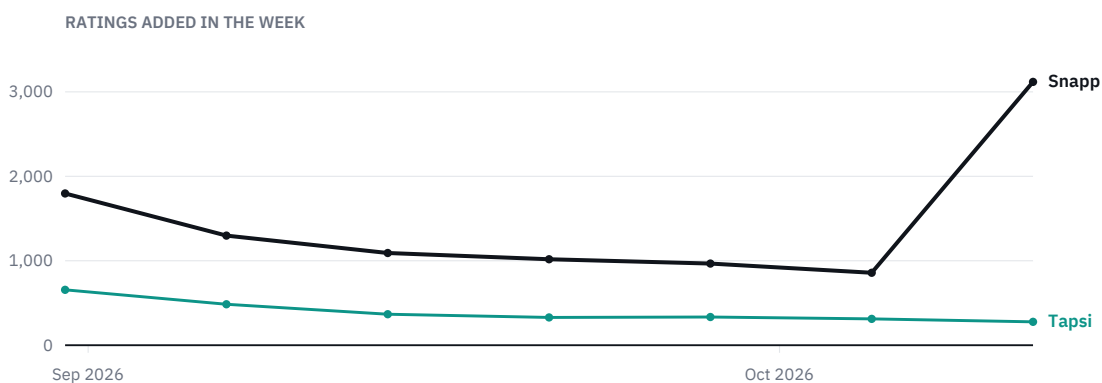

New ratings each week on Cafe Bazaar: Snapp passenger app against Tapsi

Ratings added since the previous Monday capture. Snapp added 5,998 over fifteen weeks and Tapsi 1,423: about four to one.

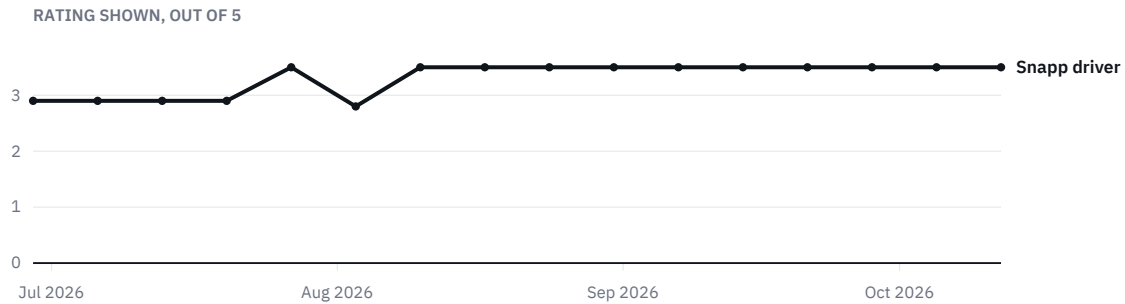

New ratings each week on Myket: Snapp passenger app against Tapsi

Myket captures began on 20 August 2026. Snapp added 10,512 and Tapsi 3,034 to 12 October. The week to 12 October shows 3,118 new Snapp ratings, three times its usual week; it is reported as captured and not explained.

The rating Cafe Bazaar shows for the Snapp driver app

The rating drivers see on the store moved from 2.9 to 3.5 in the week to 27 July 2026, dipped to 2.8 for one capture, and has held at 3.5 since 10 August. The passenger app held at 4.6 throughout.

What this report does not establish

- Who owns Internet Roz One FZE and Internet Roz Two FZE. The notices give their names, in Persian only, and foreign registration numbers (5343/2014 and 5344/2014), not their owners or where they are registered. The English spelling is the desk's transliteration.
- Who owns Ideh Negaran Atlas Romak since it became a joint stock company in February 2023.
- Why capital was paid back in June 2026, and in what form.
- Revenue, profit, debt or any financial statement. A limited liability company does not publish its accounts in the Gazette.
- Which brand, if any, Avaye Eskin Novin Shargh operates. Its objects include tourism and app-based passenger transport; a name or an object is not evidence of a brand, so the desk links none.
- Licences to operate ride-hailing, from the Ministry of Roads or any municipality, and any litigation or tax record. None is in the Gazette.
- Any dollar value. Rial amounts are as printed; the desk does not convert them here.

Method and sources

- Read on rrk.ir, the Official Gazette's legal-notices portal, on 13 October 2026 by the desk's registry reader: every notice of the eight companies in this report, 201 in all (Snapp's operating company 45, the holding 27, Almas 5, SnappFood 32, SnappPay 21, Snapptrip 30, Snapp Market 22, Avaye Eskin 19), and the registry's board table for each (the read found no board table for Almas or Avaye Eskin).
- A company enters the group only on a national ID: as a partner, a board seat or a director matched by national ID in the notices. The group companies' brands are those the desk's company record already holds for these national IDs; no brand is inferred from a name.
- People are matched across companies by the national ID printed in each notice, hashed inside the browser before anything was stored and never written down. Foreign nationals' identifiers changed over time; each is matched only to itself, never joined by name.
- The panel figures come from the App Index, the desk's weekly capture of public app-store listings since 29 June 2026, kept in its database and downloadable.
- Every figure is the notice's own: amounts in rial as printed, dates converted from the Iranian calendar. The Persian passages in the evidence annex govern.
- **Source:** Official Gazette of the Islamic Republic of Iran, legal-notices portal (rrk.ir), read 13 October 2026. 201 notices of eight companies, and the board tables of six (the read found none for the other two).
- **Source:** Tehran Index App Index (tehranindex.com/analytics), read 12 October 2026. Weekly Cafe Bazaar captures since 29 June 2026 and Myket since 20 August 2026.
