THE ANSWER

# Summary

**A real, active operator: the third company to carry the Tipax name under the same directors, inside a group of thirteen. Contract with Tipax Express Pars by national ID, and before extending credit ask who holds the postal licence, who owns the group and what Tipax has pledged.**

1. Identity is clean. Tipax Express Pars, national ID 14007209148, operates the Tipax brand, has filed 37 Gazette notices since 14 November 2017, approved its accounts for every year from 2019 to 2020 through 2024 to 2025, and re-elected its board on 11 July 2026.
2. It is the third company to carry the Tipax name under the same directors. Tren Part Tipax and Tipax International, whose boards included the same four Fakher directors (matched by national ID), were dissolved in late 2023 and fully liquidated by June 2025. The postal-licence and franchise objects appeared in Tren Part Tipax in 2019 to 2020 and sit today in Post Avval Fakher Iranian, not in Tipax Express Pars, whose objects have not changed since 2017.
3. It is not a standalone company. Four of its seven board seats are held by companies, and all four belong to a group of thirteen live companies that hold seats on one another's boards. The most connected is Novin Ideh Fakher Iranian, a holding company that sits on nine of the other twelve boards, has no company on its own board, and is chaired by Tipax's managing director, Mehrdad Fakher.
4. Its 4,000,000,000,000 rial of registered capital was built by five increases, none of which records a cash contribution: four converted matured receivables into shares, the fifth capitalised retained earnings. Only the 1,000,000 rial founding capital was cash.
5. Article 40, as rewritten in October 2024, lets the board pledge Tipax assets for loans to third parties. The Gazette does not record pledges, so this is the question to put to the company.

# What to ask before you sign

Seven requests that close the gaps the registry leaves open, each one reasonable for a serious counterparty to make before signing or extending credit.

1 **Which company holds the private postal operator licence, and which company signs agency (franchise) agreements.**
Post Avval's objects include operating under that licence and charging franchise fees; Tipax Express Pars' do not. A buyer should know which entity stands behind the service.

2 **The shareholder register of Tipax Express Pars and of Novin Ideh Fakher Iranian.**
The Gazette names directors, not owners. Novin Ideh is the most connected company in the group and has no company on its board; who owns it is the open question.

3 **A schedule of pledges, mortgages and guarantees given under Article 40, including any for group companies.**
Article 40 as rewritten in October 2024 permits them, and they are not filed in the Gazette.

4 **Audited accounts for the year to March 2025, with the related-party note.**
Half the capital came from converting claims on the company, and seven pairs of group companies sit on each other's boards.

5 **Who owns the Tipax trademark, and on what terms Tipax Express Pars uses it.**
Novin Ideh's objects include holding and trading brand rights. If the brand sits outside the operator, the contract should say so.

6 **Contract with Tipax Express Pars, national ID 14007209148, signed by its managing director with the company seal, not with an agent office or a predecessor company.**
That is the signature the registered rules accept on their own. The old companies are liquidated and the counters are mostly agents.

7 **The identity of the foreign company named Tipax Express that became a partner in Tren Part Tipax in 2021.**
The notice gives only a foreign-entity number. If a company of that name stands behind the brand abroad, a cross-border buyer should know which one it is.

# Findings in full

MATERIAL

### Tipax Express Pars is the third company to carry the Tipax name under the same directors

Tren Part Tipax, a limited liability company, ran a branch network across Iran from at least 2012. Tipax International, a joint stock company with the older registration number 17423, had overlapping objects (distribution and customs clearance) and the same No. 38 Nejatollahi Street address by 2012. Mehrdad, Ashraf, AmirHossein and MohammadAli Fakher, matched by national ID, sat on all three boards. Both older companies were dissolved, on 26 November and 7 December 2023, and their liquidations were declared complete on 10 June 2025 and 7 October 2024. Their liquidators called creditors in March 2024 with windows of one year and six months, both now closed. Obligations of the old companies do not pass to Tipax Express Pars by themselves; a contract signed with either of them before 2017 should be renewed with the current company. [53, 49, 50, 60, 51, 63, 62, 61, 52]

MATERIAL

### The one ownership record in the group points to Mehrdad Fakher

Joint stock companies such as Tipax Express Pars file no shareholders, but limited liability companies publish their partner lists. In May 2017 Mehrdad Fakher, named in the notice as son of Mohammad Ali, paid 20,000,000,000 rial into Tren Part Tipax and MohammadAli Fakher took the same sum out at the same meeting, leaving Mehrdad Fakher with more than 99.99 per cent. (The notice does not say whether the father it names is the partner MohammadAli Fakher.) In April 2021 a foreign company named Tipax Express, identified by a foreign-entity number, joined with 1,000 rial; Tipax International held 950,000 rial. This is the predecessor, not Tipax Express Pars: it shows who owned Tren Part Tipax as late as 2021, not who owns the operator today. Unlike Tipax Express Pars' capital, this was cash. [54, 55, 56, 57]

MATERIAL

### The postal licence and franchise rights sit outside Tipax Express Pars' objects

Tipax Express Pars' registered objects include customs clearance, distribution, intra-city transport, tenders, trade and agencies, unchanged in 37 notices. The objects that make a courier network a franchise business appear elsewhere: operating under the non-governmental postal operators' licence and charging franchise fees and commissions for granting postal authorisations. Tren Part Tipax held them in 2019 and dropped them in 2020; Post Avval Fakher Iranian, formed in September 2019 and chaired today by Mehrdad Fakher, carries them now. Financial post (fund transfers) was in its objects from incorporation, and a Communications Regulatory Authority permit in late 2019 added coordination with Post Bank and the Central Bank. The registry does not say which company holds the licence today or signs agency agreements; that is the first question for the company. [1, 58, 59, 65, 66, 67]

MATERIAL

### The capital is book capital

Registered capital rose four million times, from 1,000,000 rial at incorporation to 4,000,000,000,000 rial in August 2025, through five increases. Four converted matured receivables (claims on the company that had fallen due) into shares; the notices do not say whose claims they were or how they arose. The fifth capitalised retained earnings. None records a cash contribution at the time of the increase. Registered capital is a book figure, not a measure of cash and not a valuation. [2, 4, 6, 10, 12]

MATERIAL

### Four of seven seats lead into a group whose owners the registry does not show

Afraz Payaneh, Novin Ideh, Paya Goroh and Arzesh Afarinan hold four of seven seats. Novin Ideh, whose objects are to build a postal and logistics ecosystem and to hold brand and software rights, sits on nine of the other twelve group boards, chairs six, and has only individuals on its own board. Its chair is Mehrdad Fakher, Tipax's managing director, matched by national ID across ten companies. The registry names directors, not shareholders, so who owns Novin Ideh is not established. [15, 17, 19]

MATERIAL

### Seven pairs of group companies sit on each other's boards

Two of the pairs include Tipax: it is vice chair of Afraz Payaneh, which is vice chair of Tipax, and managing director of Arzesh Afarinan, which holds a Tipax seat. One person, Aspet Petrosian, sits on Tipax's board for Arzesh Afarinan and runs Arzesh Afarinan for Tipax. Tipax also chairs Fakher Kala. Where two companies hold seats on each other's boards, each board has a director appointed by the other, including when the two deal with each other. [15, 25, 32, 30, 43, 40, 45, 36, 48]

ASK

### The board may pledge Tipax assets for third parties

Article 40, rewritten on 21 October 2024, lets the board mortgage company property for loans in any amount to the company or to third parties, and accept third parties' guarantees. What matters here is the number of related companies that could be the third party. Pledges are not filed in the Gazette. [11]

ASK

### A one-billion-rial company holds a seat

Arzesh Afarinan Taban was formed on 12 September 2023 with 1,000,000,000 rial in cash, at the group's Taban Street building, and joined Tipax's board thirteen months later. It records no capital increase. Its own managing director is Tipax. [31, 32]

ASK

### Most of the network is run by agents

Tipax's own activity reports count 555 representative offices at March 2021, 1,052 contact points in the winter of 2022 to 2023 and 1,336 in the winter of 2024 to 2025, against 555, 528 and 474 line and head-office staff in the same years. Parcel volume grew over the period (the reports define it differently each year, so the figures are not strictly comparable). The reports do not say how many points the company runs itself, but with fewer than 500 staff for more than 1,300 points, the counter a buyer walks into is likely to be an agent rather than Tipax Express Pars. Liability, claims and service terms should be agreed with the company itself. [75, 76, 77, 78, 79, 80, 72, 73, 74]

NOTE

### The office moved out and back in five weeks

On 27 December 2023 the board moved the registered office to a unit in an office furniture arcade on Hafez Street; on 30 January 2024 it moved it back to No. 38 Nejatollahi Street. Documents dated in that window may carry the Hafez Street address. [8, 9]

NOTE

### Group companies were capitalised the same way

Paya Goroh, Karvar, Tondar Peyk and Tondar Raya Pay were each raised to exactly 30,000,000,000 rial out of matured receivables between 22 November and 16 December 2021; Afraz Payaneh (to 2,000,000,000,000 rial) and Fakher Kala (to 200,000,000,000 rial) the same way. One audit firm, Razdar, is statutory inspector of Tipax and of at least seven other group companies. [27, 42, 34, 39, 24, 47]

NOTE

### The group is still adding companies

Rahkar Ettesal Fakher Iranian was registered on 17 May 2026 with 1,000,000,000 rial in cash, at the group's Taban Street building, with objects that mirror Afraz Payaneh's hub business but within a city. Its first board is Novin Ideh (chair), Post Avval and Pooya Rahro Fakher Parsian, an online-marketplace company formed in 2019 whose own board is Novin Ideh, Paya Goroh and Tondar Raya Pay. Pooya Rahro does not carry the Fakher Iranian name, so a name search misses it; it was found by walking the boards. A name search for Fakher Iranian returns 46 companies: at least six are group companies already traced, three were checked by director ID (Post Avval and Rahkar Ettesal are in the group; Ani Bar Fakher Iranian in Tabriz shares no director and is excluded), and the other 37 were not checked. [68, 69, 70, 71]

NOTE

### Tondar Peyk left the board but not the group

Tondar Peyk held a Tipax seat from November 2021 and was not re-elected on 11 July 2026. It still sits on Afraz Payaneh, Tondar Raya Pay, Karvar, Fan Avaran and Fakher Kala. [14, 25, 43, 40, 45, 48]

# Board and control

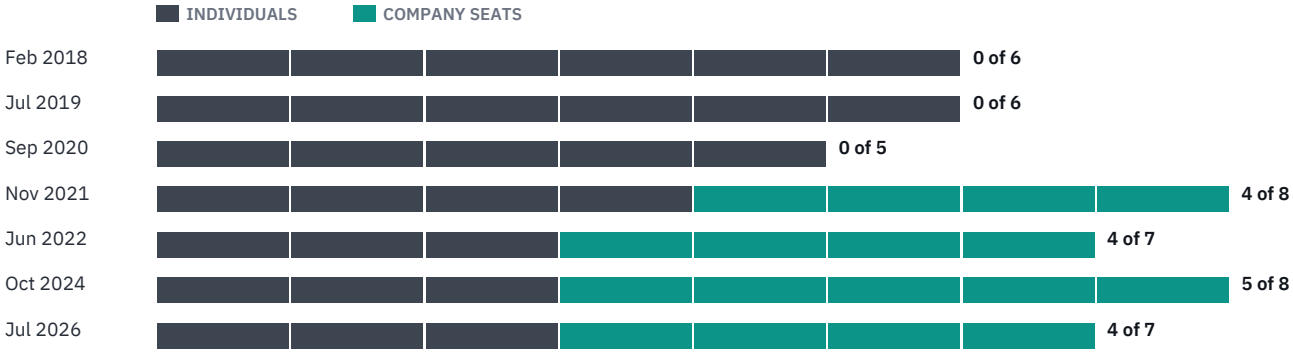

Seven seats: three individuals named Fakher and four group companies. The managing director, Mehrdad Fakher, can bind the company alone with its seal.

## The board elected on 11 July 2026, to 10 July 2028

| SEAT | TYPE | REPRESENTED BY | ROLE | REF |

| **Arzesh Afarinan Taban** | Company | Aspet Petrosian | Board member | [15] |

## Company seats on the Tipax board, by term

Individuals and company seats on each board elected since 2018. Company seats arrived in November 2021 and have held the majority since.

## How the company signs

**Signing authority.** Binding documents (cheques, notes, contracts, official deeds) are valid with the managing director's signature alone and the company seal, or two directors jointly with the seal. Ordinary correspondence: the managing director alone. [16]

**Managing director's powers.** At its meeting of 11 July 2026 the board delegated all of its Article 40 powers to the managing director. [16]

**Board powers (Article 40).** As rewritten on 21 October 2024, include pledging company property for loans to the company or third parties and accepting third-party guarantees. [11]

**Statutory inspector.** Razdar Audit, appointed in March 2019 and reappointed since; alternate Fariavaran Rahbord Audit since 2025. Razdar is also inspector of at least seven other group companies; Arzesh Afarinan uses individual inspectors. [13]

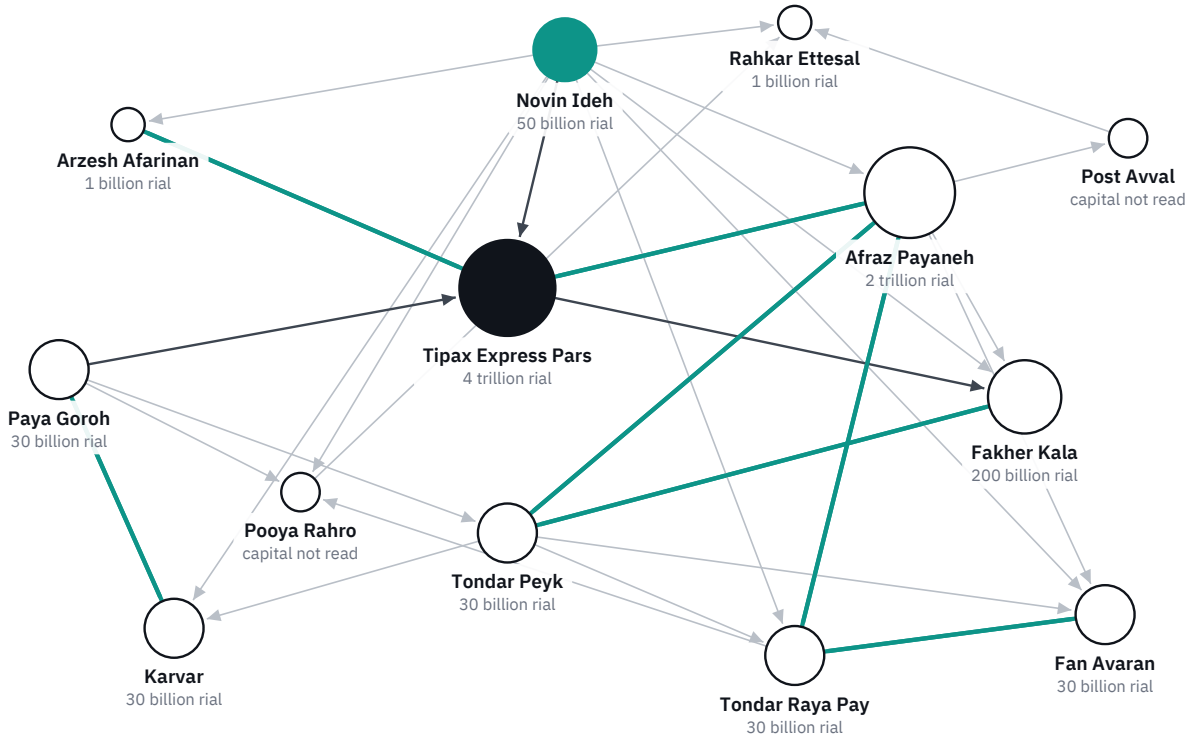

**Accounts.** Approved at the annual meeting each year; latest approved: the year ended March 2025 (meeting of 21 July 2025). The registry carries the approval, not the accounts. [13]

**Share form.** Par value 1,000 rial since April 2023; the last 100 bearer shares became registered in 2023, so every share now has a named holder in the company's own register. [7]

05

# The group behind the board

Four of the seven seats lead to companies that sit on one another's boards. Traced one by one through their own national IDs, they make a group of thirteen live companies. The most connected is Novin Ideh Fakher Iranian, a holding company. Only a shared board seat or a director matched by national ID links a company to the group, and that link says nothing about ownership.

Arrows run from the company holding a seat to the board it sits on. **Teal lines** join pairs that sit on each other's boards. Circle size follows registered capital (log scale). Tipax is filled black; Novin Ideh, the holding company, teal. Current boards only.

# Who sits on whose board

Read across: the company in the row holds a seat on the board in the column. C chair, V vice chair, D managing director, M member. Teal cells are reciprocal: the column company also sits on the row company's board.

# Before Tipax Express Pars, and who owned it

**The brand is older than the company. Tipax's 2021 activity report claims 61 years of activity; Tipax Express Pars was registered in 2017. The registry shows two earlier companies carrying the Tipax name, run by the same directors, and the company that carries the postal-licence objects today.**

## The only partner list in the group: Tren Part Tipax

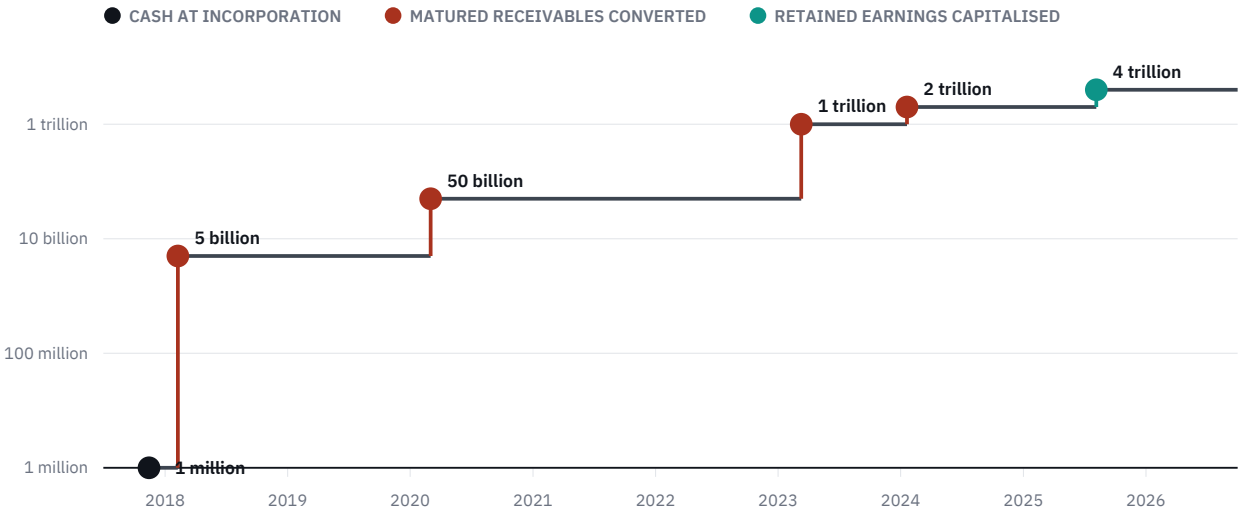

Joint stock companies such as Tipax Express Pars publish directors, not shareholders. Limited liability companies publish their partners, which is why this is the one ownership record the Gazette holds for the brand. Amounts in rial.

# How the capital was built

## From 1,000,000 rial to 4,000,000,000,000 rial in eight years, by five increases none of which records a cash contribution.

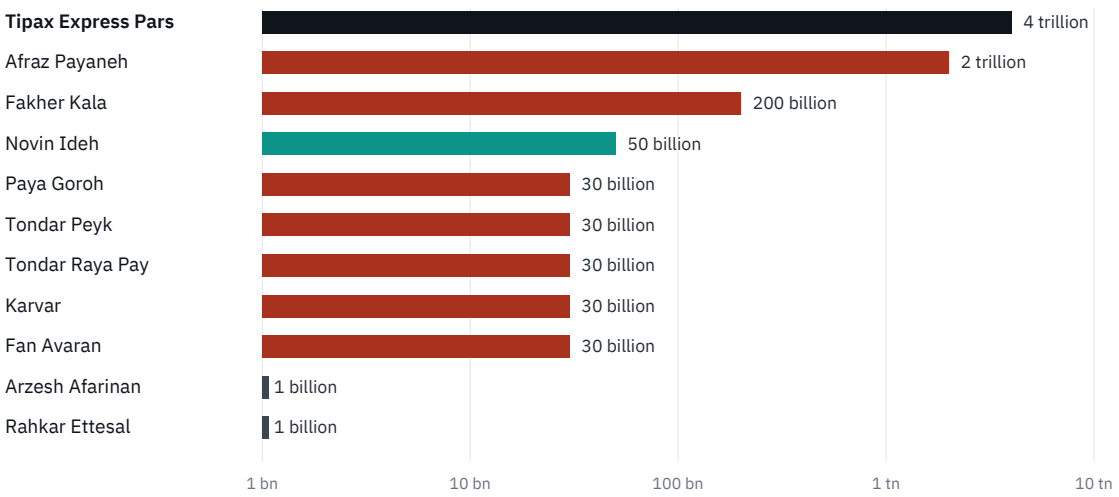

| MEETING | FROM | TO | STEP | FUNDED BY | REF |

Matured receivables are claims on the company that had fallen due; converting them into shares turns a debt into equity, and no money changes hands at the time of the increase. The notices do not say who held the claims or how they arose. Capitalising retained earnings moves profit already earned into share capital. Both strengthen the balance sheet on paper; neither says anything about cash today. Registered capital is nominal and is not a valuation.

## Registered capital across the group

Black: Tipax. **Red**: built by converting matured receivables. **Teal**: retained earnings. **Slate**: cash at incorporation only. Log scale.

# What this report does not establish

- Shareholders of Tipax and of every group company. Iranian private joint stock companies file directors, not shareholders, in the Gazette. Ownership above the board is therefore not established, and the shared name, building and directors are not evidence of who owns what.
- Pledges, mortgages and guarantees over Tipax assets. Article 40 permits them; the Gazette does not record them.
- Financial statements. The registry records that accounts were approved each year, not the figures.
- Litigation, tax and credit standing. Outside the Gazette and outside this check.
- Who owns the Tipax trademark. Novin Ideh's objects include holding brand rights; the trademark register was not searched (CAPTCHA).
- Which company holds the private postal operator licence today, and the identity of the foreign company named Tipax Express.
- Whether any of the other 37 companies named Fakher Iranian, or companies under other names, belongs to the group. Pooya Rahro shows that the group also uses other names.
- Anything published after 13 October 2026.

## Method and sources

- Read on rrk.ir, the Official Gazette's legal-notices portal, on 13 October 2026.
- Every notice of sixteen companies, 412 in all, read in full rather than sampled: Tipax Express Pars (37); the nine companies connected to its board directly or through one another's boards (287); the two predecessor companies found by a company-name search for Tipax (53); three companies found by a name search for Fakher Iranian (15), of which two are linked to the group and one is not; and Pooya Rahro Fakher Parsian (20), found on Rahkar Ettesal's board.
- People were matched across companies by the personal national ID printed in each notice, compared in the browser and never recorded. Every tracked person carried one ID across the companies in which they appear, so there are no namesakes in this report. A company joins the group only through a board seat held by a group company or a director matched this way; a shared

name, surname or address is never enough.

- Operating figures come from Tipax's own activity reports for the years to March 2021, 2023 and 2025, held in the Tehran Index archive with page references.
- The trademark register (Iran's Intellectual Property Centre) puts its search behind a CAPTCHA, which the desk does not bypass; trademark ownership is therefore listed as a question, not a finding.
- Persian dates converted to the Gregorian calendar. Personal national ID numbers are withheld throughout; company national IDs are printed, because they are how a buyer looks a company up.
- English renderings are the desk's translation; the Persian passage in the annex governs.
- **Source:** Official Gazette of the Islamic Republic of Iran, legal-notices portal (rrk.ir), read 13 October 2026. 412 notices of sixteen companies; the board tables of each company.
- **Source:** Tipax website (tipaxco.com), site footer, read 15 September 2026. That the brand is operated by Tipax Express Pars.
